Steps Access

Smart Lock Control: Picture this: you're away from home, perhaps on a vacation or at work, and you suddenly remember that you forgot to lock your front door. No need to panic! With our state-of-the-art Access Control Service, you can effortlessly secure your doors with a simple tap on your phone or tablet. Say goodbye to traditional codes and embrace the future where safety is literally at your fingertips, no matter where you are.

Setting Up Your Door Locks

Once your locks have been installed, your dealer will add them to your g! system. After your dealer has added the locks for your home, you need to manage the users and the passcodes. Refer to the User Settings Interface Instructions (a separate document) for managing users and passcodes. You must first create users and assign passcodes before you can effectively use the door lock interface.

Locks appear as part of Security and are accessed from the g! Main Menu by pressing the SECURITY
